Medical Chair, Heart Failure and Chronic
Cardiovascular Disease, CSBC
Victoria, BC

Highlighting important considerations from a cardiologist's and nephrologist's perspective, Dr. Normand Proulx and Dr. Elizabeth Swiggum will discuss cases using a patient-centered approach. Their discussions around these cases will offer practical insights and benefits to healthcare providers involved in the management of T2D.

This Corridor Consult is available **LIVE for In-person and VIRTUAL attendees** and **ON-DEMAND** for all delegates
